### **ACTS GIVING RISE TO THIS ACTION**

#### **Count I – Infringement of the '572 Patent**

27. Plaintiffs restate all of the preceding paragraphs as if fully set forth herein.

28. Upon information and belief, on or before August 7, 2009, Impax submitted ANDA No. 91-447 to the FDA under § 505(j) of the Federal Food, Drug and Cosmetic Act ("FFDCA") (21 U.S.C. § 355(j)).

29. ANDA No. 91-447 seeks FDA approval for the commercial manufacture, use and sale of generic doxycycline delayed-release capsules, 40 mg, for oral administration ("the Generic Products").

30. Pursuant to § 505(j)(2)(A)(vii)(IV) of the FFDCA, Impax alleged in ANDA No. 91-447 that claims of the '572 patent are invalid and/or not infringed by the commercial manufacture, use or sale of the Generic Products.

31. ANDA No. 91-447 specifically seeks FDA approval to market the Generic Products prior to the expiration of the '572 patent.

32. Plaintiffs received written notification of ANDA No. 91-447 and its § 505(j)(2)(A)(vii)(IV) allegations by letter dated August 7, 2009.

33. Impax's submission of ANDA No. 91-447 to the FDA, including its § 505(j)(2)(A)(vii)(IV) allegations, constituted infringement of the '572 patent under 35 U.S.C. § 271(e)(2)(A). Moreover, if Impax commercially manufactures, uses, offers to sell, sells, or imports any of the Generic Products, or induces or contributes to any such conduct, it would further infringe the '572 patent under 35 U.S.C. § 271(a), (b) and/or (c).

34. Plaintiffs will be irreparably harmed by Impax's infringing activities unless those activities are enjoined by this Court. Plaintiffs do not have an adequate remedy at law.

35. This is an exceptional case under 35 U.S.C. § 285 because Impax was aware of the existence of the '572 patent at the time of the submission of ANDA No. 91-447 and § 505(j)(2)(A)(vii)(IV) allegations to the FDA, and was aware that the filing constituted infringement of that patent.

**Count II – Infringement of the '267 Patent**

36. Plaintiffs restate all of the preceding paragraphs as if fully set forth herein.

37. Pursuant to § 505(j)(2)(A)(vii)(IV) of the FFDCA, Impax alleged in ANDA No. 91-447 that claims of the '267 patent are invalid and/or not infringed by the commercial manufacture, use or sale of the Generic Products.

38. ANDA No. 91-447 specifically seeks FDA approval to market the Generic Products prior to the expiration of the '267 patent.

39. Impax submission of ANDA No. 91-447 to the FDA constituted infringement of the '267 patent under 35 U.S.C. § 271(e)(2)(A). Moreover, if Impax commercially manufactures, uses, offers to sell, sells, or imports any of the Generic Products, or induces or contributes to any such conduct, it would further infringe the '267 patent under 35 U.S.C. § 271(a), (b) and/or (c).

40. Plaintiffs will be irreparably harmed by Impax's infringing activities unless those activities are enjoined by this Court. Plaintiffs do not have an adequate remedy at law.

41. This is an exceptional case under 35 U.S.C. § 285 because Impax was aware of the existence of the '267 patent at the time of the submission of ANDA No. 91-447 and § 505(j)(2)(A)(vii)(IV) allegations to the FDA, and was aware that the filing constituted infringement of that patent.

### **Count III – Infringement of the '395 Patent**

42. Plaintiffs restate all of the preceding paragraphs as if fully set forth herein.

43. Pursuant to § 505(j)(2)(A)(vii)(IV) of the FFDCA, Impax alleged in ANDA No. 91-447 that claims of the '395 patent are invalid and/or not infringed by the commercial manufacture, use or sale of the Generic Products.

44. ANDA No. 91-447 specifically seeks FDA approval to market the Generic Products prior to the expiration of the '395 patent.

45. Impax's submission of ANDA No. 91-447 to the FDA, including its § 505(j)(2)(A)(vii)(IV) allegations, constituted infringement of the '395 patent under 35 U.S.C. § 271(e)(2)(A). Moreover, if Impax commercially manufactures, uses, offers to sell, sells, or

imports any of the Generic Products, or induces or contributes to any such conduct, it would further infringe the '395 patent under 35 U.S.C. § 271(a), (b) and/or (c).

46. Plaintiffs will be irreparably harmed by Impax's infringing activities unless those activities are enjoined by this Court. Plaintiffs do not have an adequate remedy at law.

47. This is an exceptional case under 35 U.S.C. § 285 because Impax was aware of the existence of the '395 patent at the time of the submission of ANDA No. 91-447 and § 505(j)(2)(A)(vii)(IV) allegations to the FDA, and was aware that the filing constituted infringement of that patent.

**Count IV – Infringement of the '775 Patent**

48. Plaintiffs restate all of the preceding paragraphs as if fully set forth herein.

49. Pursuant to § 505(j)(2)(A)(vii)(IV) of the FFDCA, Impax alleged in ANDA No. 91-447 that claims of the '775 patent are invalid and/or not infringed by the commercial manufacture, use or sale of the Generic Products.

50. ANDA No. 91-447 specifically seeks FDA approval to market the Generic Products prior to the expiration of the '775 patent.

51. Impax's submission of ANDA No. 91-447 to the FDA, including its § 505(j)(2)(A)(vii)(IV) allegations, constituted infringement of the '775 patent under 35 U.S.C. § 271(e)(2)(A). Moreover, if Impax commercially manufactures, uses, offers to sell, sells, or imports any of the Generic Products, or induces or contributes to any such conduct, it would further infringe the '775 patent under 35 U.S.C. § 271(a), (b) and/or (c).

52. Plaintiffs will be irreparably harmed by Impax's infringing activities unless those activities are enjoined by this Court. Plaintiffs do not have an adequate remedy at law.

53. This is an exceptional case under 35 U.S.C. § 285 because Impax was aware of the existence of the '775 patent at the time of the submission of ANDA No. 91-447 and § 505(j)(2)(A)(vii)(IV) allegations to the FDA, and was aware that the filing constituted infringement of that patent.

**Prayer for Relief**

WHEREFORE, Plaintiffs pray for judgment as follows:

- A. That Impax has infringed the '572, '267, '395, and '775 patents;
- B. That, pursuant to 35 U.S.C. § 271(e)(4) (A), the effective date of any approval of ANDA No. 91-447 under § 505(j) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. § 355(j)) shall not be earlier than the expiration dates of the '572, '267, '395, and '775 patents, including any extensions;
